

“Take a Break with IBM Blades” Web Briefing

Live & Interactive Client Web Briefing

Tuesday – April 13, 2010

11:30am EST

Host: Terence Pernell - IBM BladeCenter Specialist

Before you add another server to your rack, find out if Blades might be a better choice.

Reasons to consider IBM BladeCenter technology:

- ❖ IBM BladeCenter offers higher density, which helps save you space and money
- ❖ IBM BladeCenter maximizes the efficiency of your servers by consuming up to 40% less power
- ❖ IBM BladeCenter reduces the number of cables, power supplies and fans for greater simplicity
- ❖ IBM BladeCenter protects your investment by providing a consistent architecture across multiple generations of technology
- ❖ IBM BladeCenter supports a wide range of environments, including Windows, Linux, VMware, AIX and Solaris

So grab a cup of coffee and take advantage of this unique opportunity.

Then, let us *buy your lunch*. If you register for this Web Briefing, we will contact you and offer to deliver pizza and soft drinks at no charge to your location to enjoy after the Web Briefing.

This session will be held LIVE on Tuesday, April 13, 2010. A Dynamix Group expert will be available on each of these webinars to lead an interactive discussion about why *IBM blades* can be the right choice for your organization.

If you can't join us then, **we conduct these webcasts on bi-monthly basis**. Click on the registration link below to see our upcoming schedule and how to register for your event.

Registration:

Go to <http://www.dynamixgroup.com/events.htm> or contact Kelly Monk, Dynamix Group, Inc. at 770-643-8877, Ext 231 or kellymonk@dynamixgroup.com
