

Power your planet

Introducing the next generation Power Systems with POWER7
Smarter systems for a Smarter Planet

Please join on the POWER7 Announcement Tour

[Register here!](#)

POWER7 systems represent a generational shift that delivers a new definition of performance and value.

From the chip and virtualization capabilities, all the way through the operating systems, these new systems are optimized from the ground up with IBM middleware for a step change in performance, energy efficiency and new computing capabilities.

Consider these upgraded features:

- Virtualization without limits
- Workload optimization
- Energy reduction
- Resiliency without downtime
- Management with automation

Agenda Highlights:

11:30 AM Registration & Lunch begins

12:00 PM POWER 7 Announcement

Middleware Optimized for Power Systems

POWER7 Technical Briefing

2:00 PM Conclusion

Cities in April & May

Austin, TX ,	4/15
Birmingham, AL	5/6
Charlotte, NC	4/14
Cincinnati, OH	4/7
Columbus, OH	4/6
Denver, CO	5/5
Dania Beach, FL	4/21
Houston, TX	5/12
Jacksonville, FL	4/15
Kansas City, MO	4/14
Mashantucket, CT	5/26
Minneapolis, MN	5/20
Nashville, TN	5/5
Phoenix, AZ	5/25
Pittsburgh, PA	5/27
Seattle, WA	4/22
St. Louis, MO	5/13
Tulsa, OK	5/6
